

Energy Mizer TX High Bay

The Energy Mizer® TX is an excellent all round performance high bay luminaire rated for ingress at IP20. The two piece housing is manufactured in injection moulded thermo plastic polycarbonate UV and heat stabilised, the standard colour is grey, also available in a wide range of vibrant RAL colour options.

The housing is supported and suspended by an integral metal frame.

Available with the choice of aluminium or clear acrylic prismatic reflectors and options of toughened glass or clear acrylic bottom lenses.

Good photometric performance with a fixed non-adjustable lamp holder assembly and polished aluminium or prismatic reflectors.

Suitable for a wide range of applications including commercial, retail and industrial environments.

Designed to accommodate the Energy Mizer® range of induction lamps from 80w to 200w
